INTERESTING AND INSTRUCTIVE

WERE THE VARIOUS TOPICS DIS-CUSSED YESTERDAY, AND THE INSTITUTE GOES ON RECORD AS A MOST SUCCESSFUL ONE. DEBATE GIVEN LAST NIGHT. BENWOOD TEACHERS INDIG-NANT AT A NEWSPAPER'S CEN-SURE

The Marshall county teachers' institute will close this afternoon at 1:30 o'clock, after having been in progress since Monday morning. The institute has been a successful one, and all those who attended whether teachers or otherwise, were profited by the discussions.

Yesterday's topics were handled by Professors Duncan, Githens and Hodges, and each instructor was followed with the closest attention. Professor Bruce, colored, of Kentucky, told interestingly of the Kentucky public school system.

A splendid address was made in the morning by Professor Duncan, who spoke on "Information Talks." He showed with what profit a teacher could introduce into the school-room, side talks on animals, fruits, birds, nature and current events, thus brightening up the routine of school for the pupils.

Professor Githens gave the prominent characteristics of American literature with appropriate references to the best known American authors.

The alms and purposes of teaching were set forth in a good practical talk by Professor Hodges.

Professor Duncan, who is a close student of nature, was heard again on "Practical Nature Study." He spoke of botany, mentioning the sugar plant and the indigo plant, telling how they grew, etc., and his remarks were very interest-

The last talk was made by Professor Hodges on "School Discipline," and it was in line with the stalwart profes-sor's other well chosen remarks.

Last night another social evening was spent by the teachers and their friends. The piece de resistance was, "Resolved that the world is growing better." Though rather antiquated the question was given some new treatment. The optimists were: E. C. Bassett and James Ryan; the pessimists, J. T. King and Martin Brown. No decision was given. Several musical numbers interspersed the programme.

The Benwood Enterprise contained an editorial yesterday, which the teachers of Union district, which includes Ben-wood and McMechen, declare does not express their sentiments, nor does it meet with their approval, but rather their condemnation. They made a special effort one year ago to get the institute held in Benwood, and they claim that the institute has yielded a beneficient influence. At any rate, the Ben-wood teachers wish it stated that they disapprove of the needless censure the paper made on some teachers from out in the country who rode home every night, instead of boarding in Benwood,

LOCAL BREVITIES.

Matters of Minor Moment in and About the City.

the City.

Thomas Murray, white, and Winston Welch, colored, were yesterday adjudged insane by Squire Rogers.

Squire Fitzpatrick last night dismissed the case of carrying concealed weapons, against John J. Jackson, colored, of Elim Grove, the prosecuting witness failing to prosecute.

Wellsburg and Wheeling visitors are being hospitably entertained at the camp at Windsor Station, conducted by Capt. Wm. Otto. Deputy Sheriff, J. W. Kindelberger and Pat Scalley.

A competitive examination for two free scholarships, with boooks free, will be held at the Cathedral high school, on September 1, at 9 a. m., and 2 p. m., The subjects upon which the applicants will be examined are noted in another columns. All boys of this and neighboring patishes, over fifteen years, are eligible.

ABOUT PEOPLE

Strangers in the City and Wheeling Peo-

Rudolph Schott left yesterday on a tour through Ohio on his wheel.

Mrs. E. M. Lufferty left yesterday to pend a month at Mountain Lake Park.

Foreman Charles Ferguson, wife and daughter returned yesterday from a visit at Shadyside.

Mrs. Annie Morgan and Mrs. Annie McCullogh, of Elk Fork, registered at the Howell last night.

E. D. Marshall and J. N. Porter were Hancock county citizens registered at the McLure westerday.

Miss Bessie Miller, of South Chapline

street, returned yesterday from the Moundsville camp grounds.

Prof. John M. Birch and City Col-sctor J. K. Hall left last night for New fork to witness the naval review on

George R. Krebs, the famous right guard of the West Virginia University foot ball eleven, came up from New Martinsville yesterday to visit his father, J. W. Krebs, who is being treat-ed at the North Wheeling hospital.

THE ENTERTAINMENT PLANS.

For the coming River Improvement Convention are discussed

Last night in the office of the city board of education, there was a meeting of the committee on entertainment, in charge of that feature of the approaching convention of the Ohio Valley River Improvement Association Chairman Beans and Mesers. Shaffer Franzheim, Buckman and McMechen

The plans for entertainment were dis-The plans for entertainment were discussed informally and sub-committees were a pointed to take up several features of entertainment It is certain that the committee will provide two evenings of entertainment which will be thoroughly appreciated by the visiting delegates and in which the members of the Chamber of Commerce and their wives, sisters and sweethearts can consistently and enjoyably participate. Business as well as pleasure will be combined in the programme, which will be announced soon.

BETTER THIS WEEK

ron and Steel Trade Shows Some Positiv

Improvement,
PITTSBURGH, Aug. 18.—The Ameri can Manufacturer, reviewing trade con

"It may be said that the iron and stee trade is considerably better this week than it was a' last report. Our local re-port shows an improvement, and at several other points prospects are much more cheering. At Philadelphia the most favorable change seen for years is shown in the spirit of the trade. Prices remain about the same, but there is a general firming up in every direction Several furnace companies are out of the market for months to come, and there is a general feeling that a large amount of business in pig iron will be done during the next two weeks. Bessemer billet prices have advanced suddenly, as large transactions were closed. The merchant bar mills are in better shape than they have been for months, and although prices are low, they are not weak. Skelp has improved, and there is an unexpected rush of orders for merchant steel Structural orders are fair, and the plate mills are expecting a large slice of the big Australian order that will soon be placed. At New York there has been no material change, but trade is fair. The Chicago market shows a more decided strength, and there are more buyers. Southern pig iron has made another advance.

TO INCREASE THE HAVY.

Plans Prepared for Congress Provide for 16 New Vessels. WASHINGTON, Aug. 18.—A naval

program for presentation to congress involving the immediate construction of 16 warships has been adpoted by the naval board of experts to whom the naval board of experts to whom the subject has been referred by Secretary Long. It provides for three sea-going barbette-turret battle ships of 15,000 tons displacement, and a minimum of 18½ knots speed when the vessels are loaded to their deepest draught, or an average speed above 19 knots under ordinary cruising conditions; three first-class armored cruisers of 12,000 tons and 22 knots speed; three second-class protected and armored cruisers of 6,000 tons displacement and 20 knots speed, similar to the Maine type, but highly improved, and six protected cruisers of 2,500 tons and 16 knots speed. The reduced speed of these ships which is uniformly about two knots less than that proposed at a preliminary meeting of the board, was brought about by the desire to secure unprecedented range of action on account of the increased responsibility of the United States in the Pacific and the certainty that these vessels or most of them would be required to make up the fleet in that ocean. The sacrifice of speed to endurance was made with a view to securing vessels of at least 8,000 knots radius, or capable of steaming away from San Francisco to Manila and Samoa.

The board decided that the Pacific rather than the Atlantic would be the subject has been referred by Secretary

The board decided that the Pacific The board decided that the Pacific rather than the Atlantic would be the chief theatre of American naval operations in the future. All the vessels, however, will be as speedy as the fistiest vessels now building abroad, and they will be eminently more practicable in endurance, strength and formidability.

SPANISH OUTRAGES

In Porto Rico Exaggerated, Although Ctales Massacre is Confirmed.

(Copyright, 1898, by the Associated Press.) PONCE, Porto Rico, Aug. 17, noon (Delayed in transmission).—Reports are coming in from all directions of out-rages committed within the Spanish lines. Doubtless many of these are ex-

lines. Doubtees many or these are exaggerated, but the rumors of a massacre at Claies are confirmed.

Some of the natives there took refuge in the beifry of the cathedral and fired on the Sanish troops, but they were overpowered and macheted to the number of eighty. verpowered and macheted to the num-er of eighty. See the Seventh regiment, inder Captain McComb, was unable to

proceed along the mountain trail with General Henry, and having lost a gun and six horses over a precipice, raturned

and six horses over a precipice, raturaed here.

The health of the troops is steadily improving. The typhold fever brought from Camp Afger and Camp Campauga is of a mild type and is fast disappearing. Strict sanitation is being forced, with the gratifying result that sickness has decreased from 10 to 3 per cent. To-day's reports show only 430 sick in bospitat quarters out of a total command of 15,000. Most of these cases are climatic complaints.

The army is being revaccinated.

SAYS HE'S A COWARD Very Serious Charge Against Capt. Biddle, of Ohio.

NEW YORK, Aug. 18.-Under date of August 12, the Herald publishes a story of the alleged cowardice of Captain Bid-bie, of Company C, Fourth Ohio volun-

Charles Drake, of Mannington, was a Windsor arrival last night.

Rudolph Schott 166 fore Arroyo, Company C was advanc-ing on their "rabbit hunt" for invisible Spaniards, when suddenly a volley

"Hello, the rabbit is no longer on the "Hello, the rabbit is no longer on the run," exclaimed one of the soldiers. Bid-die's men were slipping behind the trees and bushes- and preparing to make a stand when someone gave the command

stand when someone gave the command to retreat.

"Rum, boys, there are a thousand to one," came the command, as the men were preparing to make resistance against their as yet unseen foe. It is alleged by the Herald that Captain Biddle gave the command. Had this panicky alarm not been given, and had not the men seen their commanding officer running with his back to the fire, they would have stood their ground and fought just as bravely as they did when they received their baptism of fire at Guayamo.

fought just as bravely as they did when they received their baptism of fire at Guayamo.

Captain Biddle, it is alleged, was found hidding in a culvert under the roadway. When General Haines and members of the stuff heard of the attack they started for the front to raily the demoralized skirmishers. General Haines and his staff officers blocked their flight and shamed the flying soldiers into turning toward the foe. But as they turned they said: "It is not our fault; we were ordered to retreat."

Captain Biddle, when brought before General Haines and esked for an explanation, said: "I did not order retreat; the flight was all the fastit of a newspaper correspondent whom the men mistook for an officer. He shouted: "Run, boys, the Spanish are attacking us."

Not only did Captain Biddle say that a correspondent had ordered the retreat, but he named the correspondent. As it happened, says the Herald, the newspaper man whom Captain Biddle secused had been talking with General Haines in his headquariers at Arroyo when the attack took place. General Haines remembered this. The accusation had scarcely passed the flys of Captain Biddle when the order came:

"Pace that man under arrest."

Captain Biddle was taken back to Arroyo, where he is still awaiting trial by court martin!.

ICE CONSUMERS

Meet and Decide Upon the Erection of a Factory to

SUPPLY THEIR OWN WANTS

THIS DETERMINATION FOLLOWS AND IS CAUSED BY THE RE-CENT ADVANCE IN THE PRICE OF ICE MADE BY THE WHEEL-ING COMPANY-THERE WAS AN EFFORT AT SECRECY, BUT THE CONSUMERS' PLANS ARE NO SECRET.

Last night at the city building, in the committee room adjoining the mayor's office, there was a secret meeting of a number of saloonists and butchers who have made no secret of their dissatisfaction with the recent advance made in the price of ice by the Wheeling Ice & Storage Company. There was an air of secrecy about the meeting of the seekers after cheaper ice, but their plans are being generally discussed by large conumers of ice, and are no secret ...

As to the proceedings of the meeting little can be learned, but it is settled beyoud any doubt that the saloonists and butchers who are interested, have decided to build on the co-operative plan an ice plant that will furnish them with ice at cost or at a price not much above cost. So far as matters have progressed, it is the intention to stay out of the ice selling field, and attend strictly and solely to the furnishing of members of the co-operative concern with the ice

In addition to butchers and saloonists who are large users of ice winter and summer, it is said some of the hotels will be interested in the new venture.

SENSENEY AND REED Are to be Surveyor of Port and Assistant,

Respectively. It is learned that the successors of Messrs. C. A. Schaefer and Will English as surveyor of the port and assistant respectively, have been decided upon by the President, and that the appointment the President, and that the appointment will be announced in a few days. Charles H. Senseney is slated for the office of surveyor of the port, and Charles T. Reed is to be deputy surveyor. Congressman Dovener, and Commissioner of Internal Revenue Scott interested themselves in behalf of Messrs. Senseney and Reed. Both of the prospective appointees are well known in Wheeling, and will no doubt make efficient officials.

THE NEW TRIAL MOTIOR

On Behalf of F. W. Reynolds will not be Dropped, as Twas Rumored. There was a well defined rumor in offi-cial circles yesterday afternoon to the effect that Messrs. Howard and Handlan, attorneys for F. W. Reynolds, inlan, attorneys for F. W. Reynolog, indicted for embezelement of the funds of the Guarantee Trust Company, and last week found guilty of petit larceny by a criminal court jury, would withdraw the motion for a new trial and consent to sentence being imposed by Judge Hugus.

Mr. Handlan was seen later in the day by an Intelligencer reporter, and he was

Mr. Handlan was seen later in the day by an Intelligencer reporter, and he was very emphatic in saying that the new trial motion would not be withdrawn. Reynolds' attorneys, he said, would be ready to argue the motion to-morrow morning before Judge Hugus, and they were confident there is ample ground to justify the granting of the motion.

Accident at Crematory

Accident at Crematory.

The crown of the city crematory furnace caved in last night, and the plant was forced to suspend until repairs are made. These will probably be completed to-day. The crematory has not been able to keep up with the garbage offerings for some time. The offerings amount to over thirty tons daily, and the capacity is about twenty-four tons.

Criminal Court to-day.

Criminal Court te-day.

Criminal court will ve in session this morning. The principal business will be the calling of the docket, which will consume the larger part of the day. Judge Hugus said the Reynolds new trial motion would be argued to-day, but the lawyers for Reynolds say they will not be ready for arguments before to-morrow.

Conneil Committees Called. The council committees on fire de-partment and police have been called to meet this eyening at 7:30 o'clock at the city building. The fire committee will open bids for improvements at the Chemical and Island houses.

THE SUNDAY CONCERT.

The following attractive concert programme by the Opera House band has en anno d for Sunday afternoon a Wheeling Park:

SEVERE STORMS THURSDAY.

There were two severe storms yester day. The first was of rain and lightning and began about 3:50 a. m., lasting over an hour. The rainfall was heavy, and flooded and made impassable Mar-ket, Eleventh, Twelfth and Fourteenth streets in the business portion of the

city. The second storm of the day occurred about 3:30 o'clock in the afternoon, when there was another heavy fall of rain. Attogether, the day's rainfall aggregated about an inch. It appears now that August will break all previous summer month records for rain.

AN OLD CITIZEN DIES

Yesterday, at Betheada, over in Belnont county occurred the funeral of the late S. E. Mead, who died earlier in the week in the eighty-third wear of his friends from all parts of the county and eastern Ohio. The deceased was an un-cle of Mrs. N. B. Scott, of this city wife of the commissioner of interna revenue, and a great-uncle of Mr. A L. White, the city engineer. The lat-ter attended the funeral.

AMUSEMENTS.

Monday matinees are seldom had in Wheeling, but the announcement that the great Cleveland-Wilson Minstrels, the opening Opera House attraction, will give a matinee next Monday afternoon will be received with satisfaction by the theatre going public.

Of the company it is not necessary to say much. George Wilson is a whole show in himself but the company includes that commanding figure among contemporary minstrels Billy Emerson Emerson is the cosmopolitan minstrel favorite. He has starred in every English speaking country and has invariably made wonderful successes. He is as popular in Melbourne and Auckland as in New York and San Francisco. Emerson has an entire new repertiore of songs and stories and dialect imitations. His beautiful tenory voice was never so sweet. and stories and dialect imitations. His beautiful tenor voice was never so sweat as at present and he is doing the best work of his life with the Cleveland-Wilson Minstrels. Wilson and Emerson are pitted against each other on the ends and the result is a hurricane of fun and frolic. It is claimed to be the greatest combination ever arranged on the stage. Wilson and Emerson never appeared on the same stage before this year.
